

Subject: Application for Full-Stack Developer Position

Dear Hiring Manager,

I am writing to express my interest in the Full-Stack Developer role. While my professional experience is rooted in academic and project-based work, I bring strong hands-on skills in modern web technologies React, Node.js, and MySQL, demonstrated through the development of complete applications.

My Master's in Information Technology and certification in Web Development & Database Administration have provided me with both theoretical depth and practical capability in modern web technologies. I am eager to apply this knowledge in a professional environment where I can contribute from day one.

Thank you for considering my application. I am keen to discuss how my technical skills and project experience can benefit your team.

Sincerely,

Firaol Kapita
